SuperShuttle Airport Mobile Self Check-In

SuperShuttle is excited to announce **Airport Mobile Self Check-In**, a feature that allows you to skip the SuperShuttle check-in line and easily find your ride at the airport.

Simply follow the on-screen instructions to let us know where you are in the airport and that you are ready to ride, and you will receive your vehicle number and easy-to-follow instructions for finding your ride. You can even track the location of your vehicle real time mapped on your mobile device.

Here's how it works:

1. **Opt-In.** When you make your prepaid SuperShuttle reservation for travel from the airport, opt-in to receive text messages.
2. **Check-In.** When you arrive at your destination airport, a text message invites you to start the self-check-in process. Click the link to start the check-in process and follow the on-screen instructions to receive a boarding pass number.
3. **Ride.** You receive easy-to-follow instructions for where to meet your vehicle. When your vehicle is assigned, you receive a text message with your vehicle number and a link to track your ride.
